

METCLEAN 20LF

Metal Cleaner

PRODUCT DESCRIPTION: Metclean 20LF is low foaming alkaline cleaner formulated for use in industrial washers where corrosion protection of the parts is needed. Metclean 20LF contains a unique blend of builders and surfactants that effectively remove oils and greases from metal parts. Once removed, the oils float to the top of the bath to allow skimming and recycling of the oil. Metclean 20LF contains an amine carboxylate type corrosion inhibitor. When left unrinsed, Metclean 20LF provides short to moderate term corrosion protection.
