RIDFO 208S

Organic Defoamer

PRODUCT DESCRIPTION: Ridfo 208S is a highly efficient, non-silicone, organic liquid antifoaming agent. Unlike most defoamers which employ one major agent for destroying undesirable foam, Ridfo 208S relies on a scientific, synergistic blend of defoaming chemicals. Rapid knockdown with superior holding power is achieved at very low concentrations. Ridfo 208S is non-reactive, will not interfere in areas of use, exhibits low odor and offers excellent and rapid surface flow out. Because Ridfo 208S does not contain silicone compounds, it is safe to use in paint pretreatment systems. Aside from industrial washers Ridfo 208S finds use in waste treatment systems and paper mills.

PROPERTIES:

Appearance: Translucent Liquid

Odor: None

Density: 7.0 lbs/gal

Flash Point: >250°F

PRODUCT BENEFITS:

- Quick foam break due to lowered surface tension
- Biodegradable
- Low level use

USE PROCEDURE:

CONCENTRATION:	1:1000 to 1:100
TEMPERATURE:	Effective at all temperatures
PROCESS METHOD:	Hand add at pump site or automatic metering

SAFETY: Do Not Ingest. Product may be harmful if swallowed. Gloves and splash goggles should be worn when handling product. For full safety and first aid information consult Safety Data Sheet on this product prior to use.
